**SSAB did not make a budget request for FY 1997 as the submission would have been done a couple of years earlier when SSAB was just being established. Congress appropriated \$1.268 million as an initial appropriation for SSAB.*

***SSAB originally requested for \$2.600 million including \$300,000 from requests in FY 2016 and FY 2017, but SSA flatlined the request because of OMB's instructions to hold spending under the CR.*
